

SATURATED SETTINGS
VIVID & COLORFUL

FEATURING THE WORK OF
MILA BRIDGER
WWW.MILABRIDGER.COM

Born in Poland, Mila Bridger started her journey in art at the age of 7 taking pictures on a Zenith camera from her Grandmother and trying to materialize the fantasy worlds in her mind. Mila went to school in Poland and St. Lawrence College in Kingston, Canada. But normal school projects and teachings didn't satisfy her notions of esthetics and hunger for a challenging shot.

Photography is Mila's form of expression. Her goal is to mess with reality one picture at the time and to create a shock like a sparkplug in an engine – to ignite a reaction and an emotion in the viewer. She manufactures fantasy with her thoughtfully stylized, saturated settings.

Mila's unique view of the world through the lens of a camera has taken her around the world for very exciting subjects and shoots, from fashion and glamour to more personal creative portraits. Her final product is always vivid, colorful and twisted. Either you love it or hate it. But it will always make you feel something, which for Mila is a mission accomplished.
